Withdrawal of Mr. Wood.

Thurlock Wood has retired from the Albany Evening Journal. He says that he "differs with his party about the best means of crushing the rebellion," and he therefore withdraws rather than live in strife with those whom he has esteemed.

Mr. Wood has been supposed to be the exponent of the Seward policy of suppressing the rebellion—a great show of power, little fighting, and the salvation of slavery as a means of cementing the future Union, after hostilities have ceased.

This policy has been tried for nearly two years, and has brought us little but disaster and enormous waste of money and life. It has failed to restore peace, on the contrary it has been the fruitful source of discord in the north and of increased determination in the south. How could the southern fanatics have any respect for the power of the government, when all its acts dictated by the Wood-border-state policy, proved that it feared to fight them too? It had no stomach for hard knocks, but depended upon conciliation and soft phrased diplomacy to win them back? The rebels have continually shown their contempt for such methods of reducing them to obedience, and have taken advantage of the ample time which such a policy has given them, to consolidate their power and prepare for resistance.

The withdrawal of Mr. Wood from public life, we trust, argues the abdication and downfall of the policy which he represents, and the substitution of vigorous and unflinching measures in the conduct of the war. We hail it as a good sign.

Democratic State Convention.

The democrats of this state have called a convention to nominate a candidate for chief justice of this state, in place of Judge Dixon, to be held at Madison on the 25th of February. The democrats are unwilling to lay aside party nominations, even for the election of a judge. There are, or have been, some well-meaning, but not very sharp republicans, who have fallen victims to the no-party delusion, but we think many of them have got their eyes open to the fact that the democratic party must be fought inch by inch, or else the country will be delivered over to the rebels, and those worse than rebels, northern traitors. We are, therefore, inclined to the opinion that either a republican or a democratic judge will be elected, and that the nomination of half-way men will be avoided by both sides.

A VILLAGER'S DODGE.—The Burlington Hawkeye states that Gen. Augustus Cusar Dodge made a speech at a democratic caucus meeting in that city, last Saturday night. "In which he said that Davis was a much better man than Abraham Lincoln—that he (Dodge) esteemed him higher—and much more of the same sort."

Speaking of the democratic gabble about peace, the Louisville Journal truly says: Let those who talk of conciliating the south read Jeff. Davis' message. They might march toward the south with olive branches enough to be mistaken, like the branches borne by the troops of Magdon, for Hannibal forest, and still they would be met only by bullet and bayonet.

We don't believe the copperhead democrats want peace. They cannot be such fools as to expect it in the manner proposed; they desire to add Jeff. Davis in destroying the Union.

A GOOD LIE.—Mr. Ginty, a republican member, made a good hit at the democrats in the assembly who are flooding the house with all kinds of resolutions. He proposed an exclusively democratic committee on buncombe resolutions, whose duty it should be each morning to introduce at least one resolution on the African question; one to endorse the action of some Governor, or other position with whom we have nothing to do; one of inquiry to the Governor of this state—how many cigars he has smoked, how much lager consumed, &c.; one on the general principles of secession, anti-administration, old bunker democracy, and one preventing negroes from emigrating to the north pole.

FROM CHARLESTON.—A letter from an officer on the United States steam sloop Candanigua, off Charleston, says:

"Charleston is the strongest fortified place on the coast. For ten miles along the coast on each side of Fort Sumter the rebels have a continuous line of water batteries, and there is no doubt in our mind that when the ball opens it will be no child's play. But we rather think there will be some light fighting for a short time, if no longer. With anxious hearts we await the signal for the fight to commence, that we may go in and win. The English and French war steamers are hovering around the blockade, waiting to see the fight. There are several contrabands from Charleston who came to our ship last night in a boat, and they say the rebels at Charleston are building six iron clad steamers, but were hard up for iron."

It has been so cold in St. Petersburg this winter that people couldn't breathe out of doors.

From the Eighth Regiment.

CORINTH, MISS., Jan. 17th, 1863.  
Messrs. Editors.—After marching and countermarching something over 300 miles south of here we find ourselves again, after an absence of ten weeks, in the great cemetery of Corinth; for, indeed, about all that is to be seen in the place that was Corinth is fortifications and grave yards. The best fortifications we have seen anywhere are here now, and I would ask for nothing better than to be inside with ten thousand good men and have fifty thousand of the enemy attack us. It would be fun for those inside, but death to those outside. But to think of stopping here is folly; we have been here now three days and we have marching orders to be ready to move at a moment's notice by rail. We take no transportation; nothing but officers' horses and artillery horses and infantry go. We suppose our destination is Vicksburg.

We have just marched over the road from Grand Junction, via Bolivar, a six days march, and now take the cars over the same ground to Memphis—strategy. Two queer moves are made, that is it looks singular to those not acquainted with the plans of the commanding general. It may be plain to him, but we cannot see through it.

We see regiments laying here that came into Corinth at the time the enemy evacuated and have been here ever since, but we poor devils have been on the go constantly. Since the 18th day of August last we have not stopped over two weeks in one place and up to January 1st we have marched, since being in the service up to that time, 1400 miles. It may seem large figures to a good many; but nevertheless it is true, and we have done 200 miles already this year.

The only time we have been on cars, since we left Cairo, was at Oxford, Mississippi; we rode to the Tallahatchie about 15 miles, and then marched to the relief of Holly Springs, a distance of 20 miles, and of course the enemy had just left on our arrival. Had we been permitted to continue on the cars we could have engaged the enemy, and recaptured much of the lost property. We are now in Gen. Smith's 8th division, 16th army corps, 2d brigade.

Col. Murphy is under arrest in Memphis for the surrender of Holly Springs. The feeling in the regiment is almost universal against him, as is almost the whole army.

We have just signed the pay rolls for two months' pay out of the six the government owes us; we got paid I think, tomorrow. The mud is about three inches deep here now, and streams of water flow through our tents profusely. We make our beds on such ground, and the print of the body is plainly visible to the naked eye in the mud after arising in the morning. I think there are more in my company who have not had dry clothes on for three days and nights.

The Quartermaster gets a few curses for not furnishing new tents; all combined, it is quite interesting, but then the glory of war, you know, outbalances all of that. After all it is better and pleasanter to be at home making war speeches and singing "Drava Boys are They," "Star Spangled Banner," "Dixie," &c., than to be sitting here in the mud; or marching all day in the rain, and when night comes we go to sleep in the mud five miles in the rear, no blankets; Adjutant comes around and Cos. G, B and K for picket to-night—"D—n the picket duty—we want our supper," is heard from several lips; no fires are allowed on our posts, and hard crackers and cold water for supper. The night passes, morning comes and the assembly is sounded—the pickets are called in. The first salute we get on joining the regiment is, "8th Wisconsin, rear guard to day." "D—n the rear guard," is heard. That's the worst place in the line. A long day's march ahead—get into camp probably at 10 o'clock at night—the troops ahead have some of them been in camp probably four hours; rails all burned up—carry wood a quarter of a mile—get a cup of coffee and crackers—get to bed at 12 midnight. Bugle sounds at three—march at five. Such is the life of the 2d brigade, and has been since August last. We are good for the most of them yet; been in the war now 17 months, lost 130 in one battle, been in six general engagements, and five skirmishes, and number 500 men, to-day. Show me the regiment that can beat us for numbers which has seen the service we have. General Stanley used to tell us we were "tough cusses." Our old chums are with us, the 11th Missouri, one of the best in the service. Their colonel, Mower, is our brigade commander, and he is all right. At Iuka his regiment got out of ammunition. He saw them falling back to get a new supply—he inquired what they were falling back for; one of the men told him to get ammunition. Says he, "show me the man that gave the order to fall back, I'll blow his brains out," and drew his pistol and gave the command—"fix bayonets, forward, double-quick." It was at this charge that many of the rebels were pulled from their ranks by the hair of the head. He commanded us at Corinth; was wounded and taken prisoner, made his escape and is now with us. He is all right from head to foot; he don't surrender government stores very often. I have written more than I intended, I must close. My best wishes to all, hoping we may be successful in the future. I am yours with much respect.

Another Conflict of Authority.

The decision of our supreme court on the habeas corpus case, is bearing its fruits.

Another similar case has occurred in Milwaukee, in which the military and state authorities came in conflict. The Wisconsin has the following account of it:

The habeas corpus cases of Paul Weyer, of Polk township, Washington county, and of Carl Shields and Carl Wehlitz, both of the 9th ward in this city, all of whom claim to be subjects of Prussia, came up before Court Commissioner Mitchell yesterday. The first of these parties has never taken out his papers of citizenship; the last two have taken out their first papers but not the second. They were drafted, and are now held as drafted soldiers in the 34th regiment, stationed at Camp Washburn. Both Col. Anneke (of the 34th) and the petitioners were represented by counsel, and the petitioners in their charge. An adjournment being asked by the attorneys of the military authorities, at 2 o'clock p. m. for a final hearing in the cases of Carl Shields and Carl Wehlitz, and last Wednesday at the same hour for a final hearing in the case of Paul Weyer.

Here is where the conflict came in. The commissioner ordered the petitioners to remain, meantime, in the hands of Sheriff Webster, to which the captain of the guard demurred. He insisted that he was responsible to Col. Anneke for the petitioners, and that he should return them to him. Sheriff Webster meantime declared it his purpose to take the petitioners along with him. The captain of the guard ordered his men to march the petitioners off; the sheriff ordered them to remain, and at the same time he sent off a messenger for a number of his deputies, at the appearance of whom the captain concluded to compromise, letting the petitioners go, while the commissioner should draw up a statement for the captain to present to his colonel, in order that no blame should attach to himself. Thus ended the chapter, the sheriff taking the petitioners into custody for their appearance next week.

For the Daily Gazette.

Messrs. Editors.—It seems strange to me that while that portion of the democratic party in this city that just now is disposed to curse the administration and all persons who are in favor of prosecuting the war for the preservation of the Union, have no condemnatory word for Jeff Davis and Co., who are using every effort to destroy the government.

They uphold the traitors by word and deed, and denounce in no unparading terms those who are giving their life-blood and treasure to sustain the Union and the flag of the nation. They talk peace without having any idea of how it is to be obtained. They quote from their greater lights like Vallandigham, Cox and others, and endorse to the fullest extent the Chicago Times, which has been unanimously voted out of the board of trade of Chicago for its secession principles. They rejoice when our armies meet reverses, and appear dejected when they are successful. It has become quite public that this class of men met together and held a drunken revel on the defeat of the federal troops at the first battle of Bull Run. I do not question the truth of the report, however sad and sickening it may be to every patriot in the land. It is this class of men, also, who claim to be the soul and embodiment of the democratic party. Shades of a Jefferson, a Jackson, and a Douglas, how the great principles of the party of your days have been departed from by the degenerate sons of the nineteenth century! If from out the portals of heaven their spirits are permitted to look at the degeneracy of party and men, methinks their stern old heroism shines forth with a radiant splendor that will light anew the patriotic fervor of men here below, which will arouse them from the depressing order of the times and send them forth to victory. Traitors will go down beneath the wave of freedom's banner, oppression sink into the darkest and deepest abyss of perdition, while usurpers and tyrants will be brought to condign punishment by the mighty influence of mind and muscle. Would to God that they might be permitted to raise their voice again for the right and justice of the great battle of freedom. Would that they might live again, and with the Father of his Country, the great and noble Washington, promulgate anew his farrowell address. Would that every man had a copy of that patriotic and soul-inspiring paper, and would read and be governed by it. Then indeed would war's rude blast be heard no more, and peace and quietness once again be emblematic of future glory and greatness. The bondmen loosed and our nation free in fact as in name. No more oppression, no more bondage, no more thirst after gold and place, but all united and happy, and the old flag with an hundred added stars floating proudly "o'er the land of the free and the home of the brave." Amid the hosts of traitors, amid the tumult and horrors of civil war, amid the groans of the wounded of a hundred battle-fields, however, coming up the battle cry of freedom from brave hearts and willing hands, writing on the dial plate of time in letters of living light, that noble sentiment of other days and other times, "UNIVERSAL LIBERTY AND EMANCIPATION." That such will be the final result of the great battle now in progress; no one can doubt who looks into the historic page of the past or far down the vista of the future, for

Messrs. Editors.—It seems strange to me that while that portion of the democratic party in this city that just now is disposed to curse the administration and all persons who are in favor of prosecuting the war for the preservation of the Union, have no condemnatory word for Jeff Davis and Co., who are using every effort to destroy the government.
